Miniature Proportional Valve

KLPV-HP

Valve Type: 2-Way Normally Closed Electrical Connection: Flying Wire Leads Power Consumption: 14 watts (max)

Voltage Range: 24 VDC Working Pressure: 0~20 bar

Orifice Size(mm): 1, 1.5, 2, 3 and 3.5

Prot Types: G1/4" Seal Material: Viton

Wetted Materials: Cold rolled stainless steel w/ electroless nickel

plating, brass and 304 stainless steel

Temperature Range: -320 to 120°F (-196 to 50°C)

Maximum Hysteresis: 10-15% of full current (varies with max

flow)

Flow: 0~300 LPM of Air Leak Rate: Bubble Tight Seal

Weight: 300g

Filtration: 40 Micron

We offer high flow small size proportional valves. This non-spool design uses a moving part to ensure frictionless performance and a lifespan of up to 10 million cycles. This design ensures easy maintenance and cleaning. Our valve bodies are resistant to high and low temperatures, showing the same performance in different environments, suitable for air, hydrogen, oxygen. Mounting options provide in-line and manifold options.

Ordering Code

$$KLPV - HP - P - 24 - \square$$

Code	orifice	Max. Inlet Pressure	Max. Flow@3bar
10	1 mm	35 bar	30 L/min
15	1.5 mm	25 bar	70 L/min
20	2 mm	15 bar	125 L/min
30	3 mm	9.5 bar	230 L/min
35	3.5 mm	4 bar	310 L/min
